EU REACH (SVHC) Substances of Very High Concerns

SGW Electronics LLC. is fully committed to protecting our environment and the world's natural resources. Early adoption and full compliance with the European Union's directive for RoHS has been a focus for SGW Electronics LLC. during the last several years

In any of it's operations SGW Electronics LLC. does not use SVHC's. As a downstream user of components SGW Electronics LLC. relies of the due diligence of it's raw material suppliers to comply with SGW Electronics LLC.'s supplier code of conduct and notify SGW Electronics LLC. should their activities or products require reporting.

Substances of Very High Concerns are declared if about 0.1% of the Article of Regulation (EC) No. 1907/2006 and subsequent amendments. It is continually being amended. The most current list of SVHC's that SGW Electronics LLC. is aware of can be found at <http://echa.europa.eu/candidate-list-table>

If a part should be incorrectly classified as REACH compliant SGW ELECTRONICS LLC.'s liability will only be replacement or credit of the product.
